We collect no information about our visitor's domain, but we do collect information about our visitor's email address when available.

For visitors on our website we collect:

- The email address and personal information from the visitors who communicate with us via email.
- Any information given to us by users that contact us via inquiry form, survey, etc.

The information that we collect is used for:

- Improving the quality of our website content and user friendliness for a better user experience.
- Contact information for marketing purposes, including newsletters, emails or periodic advertisements from our company.

We do not set any cookies for any purpose.

If you are currently receiving a newsletter or emails from us and would like to stop receiving them, please notify us by email on our [contact page](#).

We do not partner or use any 3rd party ad services or content delivering services.

With respect to security, we use industry standard encryption technologies, when transferring and receiving data from visitors on our website.

With respect to sensitive information, we will redirect the user to a secure page either on our site, or to a trusted 3rd party site before transferring or receiving sensitive data. This information may include credit card or banking information, medical information, or other sensitive information.

For questions regarding our privacy policy or website in general, please contact by; email on our [contact page](#).

Security

We have security procedures in place to protect your personal information. We use the Secure Sockets Layer (SSL), an advanced security protocol that protects your credit card information and ensures secure online ordering. SSL Internet connections are encrypted, and thus protect all credit card ordering information, including your name, address and credit card number, so it cannot be read in transit. We use secure technology, privacy protection controls, and restrictions on employee access, to safeguard your personal information.

Any unwanted hard-copy (printed) personal information is disposed of via a professional security shredding/destruction service. HyperVibe does not accept responsibility for the security of information while it is being transmitted to us over the Internet.
